EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) In the Title

Replace title with: --Method of Manufacture of a Silicon Carbide MOSFET Including a Masking with a Tapered Shape and Implanting Ions at an Angle--

b) In the Claims

This application is in condition for allowance except for the presence of claim 21 to 24 non-elected without traverse filed on 12 December 2005. Accordingly, claims 21-24 been cancelled.

Reasons for Allowances

The following is an examiner's statement of reasons for allowance: in claim 13, the features in lines 3-6, "forming an Sic mask on a surface of an epitaxial layer of SiC, the SiC mask having a tapered shape in cross-section, with side surfaces forming an angle with respect to a normal to the surface of the epitaxial layer of SiC in a range from 30° to 60°" and lines 9-13, "implanting second ions into the epitaxial layer of SiC through the surface, using the SiC mask as an ion implantation mask, to produce a source region having a second conductivity type, opposite the first conductivity type,

within the base region, so that at least the base region has an interface forming an angle with respect to the normal to the surface in a range from 30° to 60° with commensurate features in claim 17 cannot be found in the prior art of record. The prior art of record fails to teach, in combination, the process features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William M. Brewster whose telephone number is 571-272-1854. The examiner can normally be reached on Full Time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Smith can be reached on 571-272-1907. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
